Althea,

See KSA requirements for position below. We need to have a person down there tomorrow.

**Subject:** RE: debris specialist at the JFO

Good afternoon:

I talked to the FEMA Rep at the JFO (Tony Furr) and he requested that EPA provide a SME type person to be at the JFO to help with potential debris issues or questions that may occur as debris recovery ramps up. Tony has a desk for that person today. I told him it would be tomorrow at the earliest before EPA could have someone here. He was fine with that. The JFO Debris folks will be moving to the Annex in the next few days, and there is a desk for the EPA SME.

Don't forget there is a debris conf call at 1530 today.

Call or email me with questions.

**Subject:** debris specialist at the JFO

Greg – Please check with FEMA on the possibility of having a debris specialist from EPA (Robbie Snowbarger) embedded with them at the JFO. Ronnie informed me that debris is a topic of multiple meetings and suggested it would be beneficial to have someone like Robbie at the JFO working these issues with FEMA and USACE.
